Executive Summary

Hikvision UAE delivers a complete security ecosystem for the manufacturing sector, combining **advanced surveillance cameras**, **enterprise access control systems**, and **AI-powered deep learning analytics**. Tailored for UAE industrial environments — from small workshops to large industrial cities — our solutions protect assets, personnel, and intellectual property with local support and 24/7 responsiveness.

Core Manufacturing Challenges We Solve

Security Gaps

- ▶ Theft of raw materials and finished goods
- ▶ Unauthorized access to sensitive production floors
- ▶ Equipment tampering and sabotage risks
- ▶ Operational blind spots in large factory layouts

Safety and Compliance

- ▶ Health and safety violations monitoring
- ▶ PPE detection (helmets, vests, goggles)
- ▶ Danger zone intrusion alerting
- ▶ Fire and smoke early detection with video AI

Solution Components

Component	Description	Manufacturing Benefit
Advanced Surveillance	4K IP cameras, thermal imaging, explosion-proof and low-light models	Monitor assembly lines, warehouses, entry/exit and perimeter
Access Control Systems	Biometric, card-based, mobile credentials and elevator control	Restrict access to R&D labs, chemical storage, server rooms and control rooms
AI-Powered Monitoring	Deep learning for people/vehicle detection, PPE compliance, behavior analysis	Real-time alerts for danger zones, missing safety gear, or intrusions

AI-Powered Intelligence in Action

Smart Alerts

- ▶ Perimeter intrusion detection even in dust and low light
- ▶ Fire and smoke detection faster than conventional sensors
- ▶ Automatic Number Plate Recognition (ANPR) for truck logging

Worker Safety AI

- ▶ Forklift and pedestrian collision avoidance using video analytics
- ▶ Helmet and high-vis vest detection
- ▶ Virtual fence and restricted area management

Why Hikvision for UAE Manufacturing

Local Presence

UAE-based sales, logistics, and post-sales support — rapid on-site walkthroughs and installation.

Full Compliance

Aligns with local data protection and security regulations. Scalable from single workshop to multi-building industrial campuses.

Unified Platform

Integrate surveillance, access control, and AI on HikCentral. Centralized command center for entire factory.

24/7 Support

Email monitored round-the-clock, plus dedicated business hours phone support.

Support and Service Levels

Channel	Details
Business hours (Phone)	Mon-Fri 9AM-6PM (UAE) – +971 50 969 3134
Email (Emergency / Technical)	sales@hikvisionuae.ae – 24/7 monitoring and response
On-site assessment	Free preliminary consultation and site survey for factories (by appointment)
Remote support	Available across all Emirates (Dubai, Abu Dhabi, Sharjah, etc.)

Recommended Next Steps for Factory Managers

1. **Call +971 50 969 3134** (business hours) to discuss your factory layout and risk profile.
2. **Email** the following details to **sales@hikvisionuae.ae**:
 - Number of production halls and warehouse square meters
 - Existing security system (if any)
 - Key concerns (theft, safety, access control, etc.)
3. **Request a site survey** – Hikvision will propose camera positions and AI rule configuration.
4. **Request a quote** – including hardware, installation, and one-year support.

Formal Request Template

To: sales@hikvisionuae.ae

Subject: Manufacturing security enquiry – [Your Company Name]

Dear Hikvision UAE team,

Please provide a solution proposal for manufacturing security. Our details:

- Facility location (Emirate): _____
- Total area (approx): _____ sqm
- Number of shifts: _____
- Key risks: _____ (e.g., unauthorized entry, forklift accidents, stock theft)

Please include AI-powered monitoring and access control. Also share your nearest showroom or demo site in UAE.

Thank you,

[Your Name]

[Your Phone Number]
